D I S C U S S I O N

The City of Lincoln proposes to make Safety Improvements at the intersection of S.14th St. & Highway#2 in conformance with the federal guidelines and requirements. The proposed realignment of 14th Street will provide opposing dual left turns for northbound and southbound movements that will operate simultaneously, as compared to the current split phase signal operation. Also, the proposed improvements in Highway#2 will provide dual right turns for eastbound to southbound movements. The intersection including the dual left turn and right turn movements will be controlled by a new traffic signal. These changes in intersection geometry and signal operations will address safety, congestion and delay problems. The State agrees to reimburse the City, using Federal Safety funds, for 80% of the actual eligible project cost up to a maximum of \$376,800. The completion of this improvement is anticipated during Summer 2005.

POLICY OR PROGRAM CHANGE: No

COST OF TOTAL PROJECT: Estimated at \$560,000 (State Project No. STP-5221(2))

SOURCE OF FUNDS: Federal Safety Funds - 80% of the actual eligible project cost up to a maximum of \$376,800.

CITY: \$183,200(SO) Street Construction Funds.

NON CITY: \$376,800 Federal funds.

BENEFIT COST: ratio 2.2 : 1
